2. Manner in which the insurance is executed

Country of residence
This supplementary insurance agreement may be entered into by or on behalf of any person required to have insurance in the Netherlands as well as by persons residing abroad who hold an insurance obligation. For insured parties residing in the Netherlands, the costs of healthcare will only be recoverable if that care has taken place in the Netherlands and if it was carried out by a healthcare provider practising in the Netherlands. For insured parties living abroad, the costs of healthcare will only be recoverable if that care has taken place in the country of residence and if it was carried out by a healthcare provider practising in the country of residence. Please see Article 3.6 'Abroad' for any exceptions.

Reimbursement will take place up to the maximum rate as listed in the article on 'Maximum reimbursement' below. The further conditions of the relevant articles will remain in effect.

Supplementary to basic insurance
This insurance provides a supplementary provision or reimbursement in addition to basic insurance. A possible reimbursement on the basis of the supplementary insurance will only be applicable if the basic insurance provides no or no full reimbursement. Costs that fall under the excess of the basic insurance will not be reimbursed additionally under this supplementary insurance.

Maximum reimbursement
Entitlement to reimbursement of costs will not exceed:
- the rate that was agreed upon with the contracted healthcare providers;
- the (maximum) rate established at the time under the Health Care (Market Regulation) Act (Wet Marktordening Gezondheidszorg);
- if and insofar as no (maximum) rate has been established under the Health Care (Market Regulation) Act, reimbursement of the costs will take place up to a maximum of the market rate. In accordance with the law, this is understood to include the costs deemed reasonably appropriate given the current market conditions in the Netherlands. If a healthcare provider charges amounts higher than those deemed reasonably appropriate given the current market conditions in the Netherlands, we will therefore not be able to reimburse the higher portion.
- In the case of paramedical healthcare provided by a non-contracted healthcare provider, we will reimburse up to 100% of the average contracted rate, which is the average amount we pay for your treatment is if you go to one of our contracted healthcare providers.

If a healthcare provider charges amounts higher than those deemed reasonably appropriate given the current market conditions in the Netherlands, we will therefore not be able to reimburse the higher portion.

Medical grounds
The nature and extent of any entitlement to reimbursement of healthcare costs under this supplementary insurance policy will be determined by the latest developments in science and practice. In the absence of such criteria, it will be determined by what is deemed to constitute prudent and appropriate care and services in the relevant field of expertise. You will only be entitled to a reimbursement if you reasonably require the relevant care, which will in part be determined on the basis of suitability and quality. Care may not be unnecessarily expensive or unnecessarily complicated.

Collection transfer from the healthcare provider
If a.s.r. pays more to the healthcare provider than it is required to pay under this supplementary insurance policy, we will ask you to refund the excess amount. In that case we will take over collection from your care provider.

Changes to the supplementary insurance
If the insured party has changed a current supplementary insurance, the reimbursements received will count towards the new supplementary insurance. This applies to the terms (duration) of the care agreements as well as to the determination of the reimbursement/maximum reimbursement.

Conditions
Unless stated otherwise, the insured person must meet all the conditions referred to in the various articles before qualifying for reimbursement of costs.

3.5 Glasses or contact lenses

Glasses

What will be reimbursed?			
Doorgaan Basis	Doorgaan Start	Doorgaan Extra	Doorgaan Uitgebreid
-	-	Up to €150 every two calendar years	Up to €200 every two calendar years

Terms and Conditions:
- From 1.5 dioptres and above in one of the eyes – including if only a frame is required.
- You are entitled to reimbursement up to the maximum amount for the provision of one pair of glasses or one pair of frames or one pair of lenses every two calendar years.
- We do not reimburse:
  - glasses, lenses for glasses or frames if we have already reimbursed any contact lenses in the same calendar year;
  - glasses, lenses for glasses or frames if you have undergone laser treatment or lens implantation, which we reimbursed, within 60 months prior to the purchase of the glasses, lenses or frames.
- You may also purchase a pair of glasses in another EU, EEA and/or treaty country. It will not be necessary to make an application to us for this. The conditions of this specific article will remain in effect.
- Explanation:
- The two calendar years will come into effect on the delivery date of the glasses, lenses or frames.

Example 1: the first pair of glasses was provided on 28 June 2023. The second pair of glasses was provided on 22 March 2025. Reimbursement of the second pair of glasses.

Example 2: the first pair of glasses was provided on 12 September 2023. The second pair of glasses was provided on 20 December 2024. No reimbursement of the second pair of glasses. A new pair of glasses will be reimbursed from 1 January 2025.

- The number of dioptres per eye is calculated as follows:
  - If the spherical and cylindrical powers are both positive or negative, these powers are added together (e.g. spherical -0.5 and cylindrical -2.0 = -2.5 dioptres or spherical +0.5 and cylindrical +2.0 = +2.5 dioptres).
  - If the spherical power is positive and the cylindrical power is negative or vice versa, the highest power will apply (e.g. spherical +0.5 and cylindrical 2.0 = -2.0 dioptres or spherical -0.5 and cylindrical +2.0 = +2.0 dioptres).
  - If the dioptre requirement cannot be met by way of the spherical and cylindrical powers in the case of multifocal glasses, the additional power will be included in the calculation. This will only be added to the spherical power (e.g. spherical +0.5, cylindrical +0.5 and addition +1.0 = +1.5 dioptres).

  - lenses if we have already reimbursed any glasses, lenses for glasses or frames in the same or the preceding calendar year;
  - lenses if you have undergone laser treatment or lens implantation, which we reimbursed, within 60 months prior to the purchase of the lenses.
- You may also purchase lenses in another EU, EEA and/or treaty country. It will not be necessary to make an application to us for this. The conditions of this specific article will remain in effect.

Explanation:
- The number of dioptres per eye is calculated as follows:
  - If the spherical and cylindrical powers are both positive or negative, these powers are added together (e.g. spherical -0.5 and cylindrical -2.0 = -2.5 dioptres or spherical +0.5 and cylindrical +2.0 = +2.5 dioptres).
  - If the spherical power is positive and the cylindrical power is negative or vice versa, the highest power will apply (e.g. spherical +0.5 and cylindrical 2.0 = -2.0 dioptres or spherical -0.5 and cylindrical +2.0 = +2.0 dioptres).
  - If the dioptre requirement cannot be met by way of the spherical and cylindrical powers in the case of multifocal lenses, the additional power will be included in the calculation. This will only be added to the spherical power (e.g. spherical +0.5, cylindrical +0.5 and addition +1.0 = +1.5 dioptres).
- If you would like to consult an optician with a recognised quality mark, please visit www.nuvo-keurmerk.nl to find an optician with the NUVO quality mark.

3.6 Abroad (medical care)

General:
- You must apply for non-urgent care from us in writing in advance via our Abroad application form Geplande zorg in het buitenland, which you will find on www.asr.nl/verzekeringen/zorgverzekering/machtiging-aanvragen. You will require our prior written permission for this type of care.
  There are several exceptions for which it will not be necessary to submit an application to us. These exceptions are:
  - Glasses or contact lenses (see Article 3.5 for the specific conditions applicable);

Emergency dental care abroad

Terms and Conditions:
- During a temporary stay abroad.
- Only treatment performed by a dentist or a dental surgeon that cannot be postponed until returning to the Netherlands will be reimbursed. Treatment that can be scheduled does not qualify for reimbursement.

6. Exclusions

We do not reimburse:
- non-contribution clause: the costs covered under another special or standard insurance policy, whether it pre-dates the present insurance policy or otherwise, or which would have been covered under another insurance policy had the present insurance policy not been taken out;
- concurrence: insofar as the policyholder or the insured party is entitled to reimbursement of the insured costs or the provision of nursing or treatment pursuant to:
  - an insurance policy regulated by law;
  - government regulations;
  - any subsidy scheme;
  - or another agreement.
    In such cases, a claim will only be made on this insurance as a last resort and only the costs that exceed the amount that the policyholder or the insured party could claim elsewhere will be eligible for reimbursement;
- Wlz: provisions pursuant to the Long-Term Care Act (Wlz) to which insured parties have no entitlement under the Act. Unless expressly agreed otherwise, non-residents are not entitled to reimbursement of costs that, for Dutch residents, would be payable by the government under the Long-Term Care Act national insurance scheme;
- personal contribution under the Wlz: the personal contributions pursuant to the Long-Term Care Act and the personal contributions towards national screening programmes;
- missed appointments: charges incurred as a result of missed appointments;
- treatments within one family: the costs of consultations, treatments, medicines or medical aids that are granted, prescribed or provided by an insured party for him or herself or within a family by a family member for an insured party, unless we have given consent for this;
- preventive medicine: the costs of medical examinations and the issue of certificates, with the exception of the provisions of Articles 4.4 and 4.5;
- preventive examinations: for treatment and examinations contrary to the Population Screening Act (Wet op het Bevolkingsonderzoek);
- cell therapy: the costs of cell therapy;
- fitness: the costs of physio fitness and medical fitness training, under the supervision of a physiotherapist or otherwise;
- cover: the costs incurred in the period during which this insurance was not in force, where the date of treatment or provision is the determining factor;

- acts of war: damage or loss caused by or originating from armed conflict, civil war, rebellion, domestic unrest, rioting or mutiny as defined in Section 3:38 of the Financial Supervision Act (Wet op het financieel toezicht); in the event that the damage is caused by terrorism, the cover will be limited to the amount of the reimbursement that the health insurance provider receives as a result of its entitlement to claim compensation from the Dutch Terrorism Risk Reinsurance Company (Nederlandse Herverzekeringsmaatschappij voor Terrorismeschade, NHT). Please see the terrorism cover clause;
- nuclear reactions: damage or loss caused by or relating to nuclear reactions, irrespective of how they originated.

7. Doorgaan expert

The Doorgaan expert is your first point of contact for questions and advice. You can reach the Doorgaan expert by calling +31 (0)30 278 37 00.

8. General

Time to reflect
The policyholder is entitled to dissolve the contract, without the need to state reasons, in the following two cases:
- within 14 days of the contract taking effect;
- if the contract takes effect at a later date, within 14 days of receipt of the first policy.

Consequently, the contract will be deemed not to have been concluded.

Basis of the insurance
This agreement is based on the digital application form and, if applicable, the completed health certificate provided by the policy holder or his representative to the health insurance provider. If a medical test was performed, the details provided by the policy holder and/or the insured party within the context of that test will also be taken into account.

The policyholder and/or the insured party are obliged to answer the questions asked in the above statements and declarations as fully as possible. This also applies to the facts and circumstances in relation to a known third party to be included under this insurance policy and who has reached the age of 16.

Facts and circumstances of which the policyholder and/or the insured party becomes aware or should be aware after the policyholder has submitted this application, but before the health insurance provider has disclosed its definitive decision as to whether or not to provide cover for the risk requested, must be reported to the health insurance provider by the policyholder and/or the insured party in the event that they fall within the scope of the questions asked in the statements and declarations mentioned above.

Failure on the part of the policyholder and/or the insured party to satisfy this duty of disclosure, in part or in full, may result in a limitation or even cancellation of the entitlement to reimbursement. In the event that the policyholder and/or the insured party have acted in order to intentionally mislead the health insurance provider, or if the insurance provider would not have entered into the insurance contract had it been in full possession of the true facts, the health insurance company is entitled to terminate the insurance.

Sanctions Act
We may refuse an application for supplementary insurance or terminate a current supplementary insurance policy with immediate effect under the Sanctions Act 1977 (Sanctiewet 1977), the statutory requirements in which require (financial) institutions to safeguard their integrity and, by doing this, combat unwanted trade, money laundering and terrorism.

The text of the Sanctions Act 1977 is available on https://wetten.overheid.nl.

Commencement and termination of the reimbursement

In the event that the insured party is entitled to the reimbursement of costs incurred based upon the preceding provisions of these policy conditions, the entitlement will only apply insofar as the care was received during the period in which this insurance is in force.

Privacy regulations

When applying for an insurance or a financial service, the health insurance provider will ask the applicant for personal details and other information. The health insurance provider will use the information to enter into and perform the insurance contract or financial service, to manage the relationships arising as a result, for activities aimed at enlarging its customer database, for statistical analyses, to comply with statutory obligations and in connection with the security and integrity of the financial sector. For further information, see our privacy statement at www.asr nederland.nl/privacyverklaring.

The Code of Conduct governing the Processing of Personal Details by the Insurance Industry (Gedragscode Verwerking Persoonsgegevens Zorgverzekeraars) will apply to the processing of personal details. In connection with maintaining a responsible acceptance, risk and fraud policy, we may consult these details at Stichting CIS (Central Information System Foundation), Bordewijklaan 2, 2591 XR The Hague, c/o PO Box 91627, 2509 EE The Hague.

If the health insurance provider has noted reprehensible or unlawful behaviour, it is entitled to record personal data in the External Reference Register in accordance with the regulations of the Incidents Warning System for Financial Institutions Protocol (Protocol Incidentenwaarschuwingssysteem Financiële Instellingen). This register is used by financial institutions to assess the integrity of customers and business relations and can be accessed by the health insurance company via the central data bank of Stichting CIS.

The goal behind processing personal data at Stichting CIS is to enable insurance providers to manage risks and combat fraud. For more information, please visit www.stichtingcis.nl. The applicable privacy regulations are also available on this website.

Authorisation

An authorisation issued by the health insurance provider only applies for the term of the insurance and is issued subject to changes in legislation and regulations.

Notification

Notices for the attention of the policyholder sent to his or her last known address, or to the address of the person through whose mediation the insurance has been taken out, are deemed to have reached the policyholder.

Supplementary insurance for children

Co-insured children up to the age of 18 have the same supplementary insurance coverage as the policyholder. Does the policyholder have a Doorgaanverzekering? Then co-insured children up to the age of 18 will receive comparable coverage as the policyholder, with the exception of the coverage that only applies to the policyholder under the Doorgaanverzekering. If the policyholder's supplementary insurance changes, the supplementary insurance of the co-insured children up to the age of 18 will automatically change along with it.

Tandarts Optimaal (Optimal dental care) supplementary insurance

With effect from 1 January 2020, you can no longer take out new Tandarts Optimaal (Optimal dental care) supplementary insurance. If you have an existing Tandarts Optimaal supplementary insurance on 1 January 2020, you can retain this. If you cancel the Tandarts Optimaal supplementary insurance or switch to another supplementary health insurance at some point, you cannot thereafter be insured again using the Tandarts Optimaal supplementary insurance.

Material checks and appropriate use

Material checks will be carried out in accordance with the relevant provisions laid down for the health insurance under or pursuant to the Healthcare Insurance Act. A material check consists of a regularity audit (whether the treatment invoiced was actually performed) and an efficiency audit (given the insured party's state of health, was the treatment provided the most obvious treatment?).

From a health insurance perspective, appropriate use consists of three elements:
- Does the care claimed satisfy the state of the art in science and practice?
- Does the care claimed satisfy the conditions of the medical basis?
- Does the insured party reasonably require the relevant care (suitability and quality of care)?

DTC Care Product
In order to determine the amount to be reimbursed, the DTC Care Product will be apportioned to the year in which the DTC was commenced.

9. Premium

Premium payable
Under the terms of this health insurance, a premium is payable by the policyholder.

Age-related premium
The amount of premium you pay is based on your age. If you have you exceeded the age limit, this means that the premium will change with effect from 1 January of the next calendar year.

Determination of age
No premium is payable by the insured party until the first day of the calendar month following the calendar month in which he or she reached the age of 18.

Refund of premium
In the event of premature termination of the insurance, the outstanding premium will be reduced by a reasonable amount, except in the event of termination by the health insurance provider on account of the deliberate misleading of the health insurance provider.

10. Payment of premium and payment arrears

Payment of premium
The policyholder is obliged to pay the premium as well as the contributions arising from foreign or domestic statutory regulations or provisions in the agreed manner, i.e. monthly, quarterly, half-yearly or annually, in advance. In the event the insurance policy is changed during the course of a month, the health insurance provider is entitled to recalculate or refund the premium. The insured party is not permitted to offset the premium due against a payment to be claimed from the health insurance provider. Have you authorised us to automatically debit your insurance premium from the account number you provided us? If so, we will debit the amount payable from your account every month around the same date. If the policy is backdated when drawn up, the outstanding premium will be collected as a lump sum within 30 days. The amount of the premium is shown on the policy schedule issued to you.

If the insured party has chosen to pay the premium once a year, once every six months or once a quarter and payment was not received within 30 days, the insurance provider retains the right to convert the payment term of the premium into a monthly payment term. Any right to a discount based on payment frequency will then lapse. If the policyholder or insured party makes a payment without stating the a.s.r. payment reference, a.s.r. will decide to which outstanding amount the payment will be credited.

Payment arrears
If the policyholder fails to meet the o bligation to ensure timely payment of the premium, the insurance provider will issue the policyholder a written warning after the premium due date, urging them to effect payment within 14 days, counting from the day of the warning. If no payment is forthcoming within this period, the health insurance provider will issue a second reminder stating that, if payment is not made in time, the supplementary insurance will be terminated. In that case, only the basic insurance policy will remain effective.

The insurance company will be authorised to set off the outstanding amount against any reimbursements due to be paid to the insured party.

It will be possible to apply for a new supplementary insurance policy once the arrears in payment of the premium have been paid to the bailiff. The new policy will come into effect from 1 January of the subsequent year.

Suspension of cover during detention

The insurance will be suspended for any period during which the insured party is detained. The rights and obligations of the insured party will be reinstated as soon as the period of detention ends.

11. Obligations of the policyholder/insured party

Duty to report a claim

As soon as the policyholder or the person entitled to payment becomes aware of or should become aware of an incident that could result in a duty of payment on the part of the health insurance provider, he or she is obliged to report this incident to the insurance provider as soon as is reasonably possible.

Duty to report damage

The policyholder and the person entitled to payment are obliged to provide the health insurance provider with all the information and documents that may be of importance to the insurance provider in the assessment of its duty of payment.

Duty of cooperation

The policyholder and the person entitled to payment are obliged to lend their full cooperation and to refrain from any action that may prejudice the interests of the health insurance provider.

Original invoices

The policyholder/insured party must submit the original invoices to the insurance provider within three years of the date of treatment. These invoices must be itemised in such a way that, without further inquiry, the amount payable by the health insurance provider can be clearly identified. Computer-generated invoices must be authenticated by the healthcare provider. Neither a payment overview, nor a quote, order confirmation, proof of advance payment or advance invoice is considered an invoice. Invoices submitted digitally via our app or the my-environment qualify for fast-track payment. Invoices submitted separately (digitally) are processed faster than when multiple invoices are bundled together.

Insured parties who do not have the Mijn Zorg app yet can download it here for Android or here for Apple. In the app, go to 'Submit invoice' and make a scan of the invoice.
Policyholders/insured parties should submit invoices online as follows:

- Go to www.asr.nl/verzekeringen/zorgverzekering.
- Login using the Mijn Zorg details.
- Upload a scan of the invoice.
- Submit the invoice.
- Or:
- Print out and complete the 'Medical Expenses Claim Form'.
- Send the claim to:
  a.s.r.
  Attn. Claims Handling Department
  PO Box 2072
  3500 HB Utrecht

Interests of the health insurance provider

No rights may be derived from this insurance in the event that the policyholder or the person entitled to payment has failed to meet one or more of the above policy obligations and, as a consequence, has prejudiced the interests of the health insurance provider. All rights to payment expire in the event that the policyholder or the person entitled to payment has failed to meet the above obligations with the intention of misleading the health insurance provider.

12. Claims and suspension of cover

Claims paid directly
The health insurance provider has the right to pay the claims of healthcare providers, which have been submitted by the healthcare provider to the health insurance provider, directly to the healthcare provider. The policyholder is entitled to an itemised statement of the amounts paid. The health insurance provider will not pay the healthcare provider directly if the latter is subject to a statutory sanctions regime.

Amounts owed
The claim referred to in this article under 'Claims paid directly' will be paid in full by the health insurance provider to the healthcare provider, even if the claim is not eligible for full reimbursement, for example due to an outstanding excess or a limited payment scheme. The policyholder must pay the health insurance provider the excess or payment(s), insofar as these amounts exceed the limited payment scheme.

General claim
The amounts referred to in this article under 'Amounts owed' are payable as soon as the policyholder receives notice thereof.

The policyholder must pay the health insurance provider the amounts owed within the term specified. The policyholder is not permitted to offset the amounts due against a payment to be claimed from the health insurance provider.

Suspension of cover
In the event that the policyholder fails to pay the amount due within the term specified, a written notice to pay will be issued. In the event that the policyholder fails or refuses to pay the amount due within the term stipulated in the written notice, the medical treatment and/or provisions that have taken place after the term stipulated in the written notice will not be covered by the insurance. The health insurance provider is not required to give notice of default. Cover will be reinstated with effect from the day following the date upon which the amount due is received and accepted by the health insurance provider. During suspension of cover, the health insurance provider is authorised to terminate the insurance at a time to be specified by it without being required to observe a notice period.

In the event of an arrears of payment as referred to in Article 10 (Payment arrears), the matters related to termination of the supplementary insurance policy mentioned in that article will be given priority over the suspension as described above. The policyholder must then still pay the amount due.

13. Recourse

The policyholder and/or the insured party are obliged to:
- provide the health insurance provider with information and lend their cooperation with regard to seeking recourse against a liable third party;
- contact the healthcare provider before reaching a settlement with a third party, or a party acting for or on behalf of the third party – including the health insurance provider of the third party – in relation to the damage suffered by them.

Under no circumstances may the insured party reach any settlement with this third party or the party acting for or on behalf of this third party, including the granting of discharge, if this would prejudice the rights of the health insurance provider, without the written consent of the health insurance provider.

In the event that the policyholder and/or the insured party fail to comply with these provisions in full or in part, they are obliged to compensate the health insurance provider for the damage suffered by the insurance provider as a result thereof.

If the insurance provider is able to recover the costs, any maximum reimbursements in this supplementary insurance policy will not be adjusted in favour of the insured party.

14. Fraud

Duty of cooperation

Under the Healthcare Insurance Act (Zorgverzekeringswet) and the Incidents Warning System for Financial Institutions Protocol (Protocol Incidentenwaarschuwingssysteem Financiële Instellingen), for the purposes of fraud investigation we are allowed to monitor the content of your insurance application, your personal data in our systems, and your claims . Under the Healthcare Insurance Regulations, health insurance providers are obliged to conduct material checks and fraud investigations in accordance with the requirements in the Regulations. You are obliged to cooperate in this regard. If you refuse to cooperate, we will be unable to acknowledge your statements and will be required to draw unilateral conclusions.

Personal data

For the purposes of fraud investigation, we will register your personal data as well as those of any accessories or co-perpetrators in our Incident Register. The Incident Register is lodged with the Dutch Data Protection Authority, and is administered by the Healthcare Security Team.

Health insurers actively collaborate on fraud management

The Healthcare Insurance Act, the Long-Term Care Act and the Health Care (Market Regulation) Act authorise health insurance providers to exchange information among themselves for monitoring and fraud management purposes. We also share certain indications with sector partners to combat fraud, such as the Dutch Healthcare Authority (NZa), NLA and the Fiscal Intelligence and Investigation Service (FIOD), with due observance of Article 06.01 of the General Data Protection Regulation (GDPR). This information exchange may take place directly, or via the Association of Dutch Health Insurers. The GDPR sets out the way in which personal data may be processed.

Lapsed right to claims

No claims will be paid out while fraud investigation is underway. If the investigation reveals proof of full or partial fraud, you will no longer be entitled to reimbursement for any healthcare costs. This means we will either reject and refuse to pay the relevant claim(s) or recall the payment(s) already issued. Cases of partial fraud will void the right to compensation for the entire claim, including the portion in which no fraud was involved. We will also charge investigation costs in accordance with Section 6:96 of the Dutch Civil Code.

Sanctions

If you and any accessories/co-perpetrators are found guilty of fraud, we are entitled to:

- issue an official warning;
- place an internal alert;
- terminate your health insurance with immediate effect. This means we will:
  - refuse to grant you a new Basic Insurance policy for a five-year period. Other health insurance providers will be obliged to accept your application for Basic Insurance;
  - refuse to grant you any supplementary or other insurance policies from a.s.r. insurers for a period of eight years;
- discontinue your contractual relationship and terminate all current insurances with the brands of a.s.r. and its authorisations;
- register your personal data in the External Referral Register maintained by the Central Information System Foundation (Stichting CIS);
- register your personal data with the Insurance Fraud Bureau (Centrum Bestrijding Verzekeringsfraude) of the Dutch Association of Insurers (Verbond van Verzekeraars);
- commence a request for criminal proceedings by submitting a report to the police or another investigative body;
- reclaim healthcare and other costs involved in fraud.

15. Notification of relevant events

Notification

As a policy holder or insured person, you are obliged to provide us with information that may be significant for the correct implementation of the insurance within 30 days. By this we mean anyway:

- if your obligation to take out insurance ends;
- if your accountnumber/IBAN changes;
- if you are going to stay abroad for a long period of time
- if you move;
- if you are detained on the basis of a court decision;
- when your detention ends.

Birth

It is important to also report the birth of a child to us quickly. If the birth is reported to us within 4 months, we can insure your child retroactively to the day of birth. All healthcare costs incurred in the meantime will then be covered by the insurance. If the birth of a child is not reported to us until after 4 months, the insurance will commence on the day on which we receive the notification. If the child has already incurred healthcare costs, these will remain borne by the parents.

When an insured party reaches the age of 18

The health insurance provider will approach the insured party or his or her policyholder at least six weeks before the first day of the month following the calendar month in which the insured party reaches the age of 18, with the request to indicate his or her choice of supplementary insurance in relation to the premium that will be due as from that moment. In the event that the policyholder or the insured party fails to inform the health insurance provider of this choice in writing within the term stated in the request, a premium will be charged that is equivalent to the existing supplementary insurance.

16. Revision of premium or conditions

Annual amendment

We are entitled to amend your premium and/or policy conditions every year, effective 1 January.

Interim amendment

It is in everybody's interest for us to be able to meet (and continue to meet) our financial obligations in the future. For this reason, in exceptional cases, we may introduce interim changes to your premiums and/or terms and conditions if they cannot wait until the annual renewal date (e.g. if we are required by law to do so). 'Exceptional cases' also include the threat or existence of circumstances that may result in solvency dropping to below the statutory minimum if the changes are not implemented. Adverse developments in the interest and investment market or lower-than-expected operating results do not constitute exceptional cases.

Message with notification of changes

A revision of the premium and/or policy conditions will take effect no sooner than seven weeks after the date upon which the policyholder was notified to this effect. Before we change anything, you will receive a message from us containing information on the changes. Complaints regarding the implementation of the change will be subject to the customary complaints procedure.

17. Term of the insurance policy

Commencement of the insurance policy
The insurance policy will take effect on the date that the health insurance provider receives and accepts the relevant application stating the type of policy selected. The date of commencement is indicated on the policy schedule.

Term
From 1 January, for an indefinite period. The insured party is entitled to terminate the insurance policy on a yearly basis.

Termination of the insurance policy
It is expressly determined that the health insurance provider does not have the right to terminate the insurance, except in the event of a written notice of termination by the health insurance provider in the following cases:
- In the event that the policyholder and/or the insured party fail to pay on time or refuse to pay the premium due or the amounts owed as referred to in Article 10 (Payment of premium), the health insurance provider is entitled to terminate the insurance with due observance of the procedure referred to in Article 10 (Payment arrears).
- In the event that, within two months after discovering that the policyholder has committed fraud, as referred to in Article 14, or if the duty of disclosure upon entering into the insurance contract has not been fulfilled and the policyholder and/or the insured party have acted with the intention of misleading the health insurance provider, or if the health insurance provider would not have entered into the insurance contract had it been in full possession of the facts, the insurance will end on the date stated in the notice of termination.
- In the event that the health insurance provider announces its intention to withdraw the insurance policy concerned from the market or to no longer offer it at least one month after the date of that announcement.
- In the event that, upon and/or after acceptance of the insurance application, it appears that the policyholder/insured party is listed in the External Referral Register maintained by the Central Information system Foundation (Stichting CIS), we may decide to terminate this supplementary insurance retroactively from the commencement date.

The insurance policy may be terminated in the following ways:
- The policyholder terminates the policy in writing no later than 31 December, where we must have received the notice of termination no later than 31 December.
- The policyholder makes use of the transfer system.
- The Dutch Healthcare Authority has informed you that we have failed to meet the provisions of Section 15f of the Processing of Personal Data in Healthcare (Additional Provisions) Act (Wet aanvullende bepalingen verwerking persoonsgegevens in de zorg). In that case, we need to have received your notice of termination within six weeks of the Dutch Healthcare Authority's notification.

If the policyholder takes out a supplementary insurance policy for the following year no later than 31 December, the new health insurance provider will cancel the old policy automatically. If the policyholder does not wish the new insurance provider to terminate the old insurance policy on his or her behalf, the policyholder is required to indicate this on the application form for the new insurance policy.

If the policyholder fails to cancel the supplementary insurance, the insurance will be extended automatically for a term of one calendar year.

If the policyholder does not agree with the revisions to the policy as referred to in Article 15 (Revision of premium or conditions), the policyholder must terminate the insurance within one month of receipt of the written notice from the health insurance provider as referred to in Article 16 (Revision of premium or conditions). The insurance policy will end on the date upon which the changes stated in the written notice from the health insurance provider enter into force. The premium paid for that part of the insurance period that has not yet lapsed will in this case be refunded. The policyholder will not have the option to terminate the insurance policy in the event that:
- the change in the premium and/or terms and conditions is the result of statutory regulations and provisions;
- the change in the premium is the result of the insured party whose age is a determining factor for the level of the premium having reached the age limit;

- the change entails a reduction in the premium and the cover remains the same;
- the change entails an extension of the cover and the premium remains the same.

In the event that the health insurance provider has lodged a claim against the policyholder in respect of non-fulfilment of the duty of disclosure upon entering into the insurance within two months, the insurance policy will end on the date stated in the notice of termination or, in the absence thereof, upon the date of signature of the notice of termination.

In the event that the basic insurance policy taken out with the health insurance provider ends, the policyholder may also terminate the supplementary insurance policy. In this case, the supplementary insurance policy ends at the same time as the basic insurance policy. The supplementary insurance policy must be terminated in writing and may be terminated up to the date on which the basic insurance ends.

The insurance policy will be terminated in the following cases:
- In the event of the death of the insured party, the insurance policy will end on the day following the date of death. The health insurance provider must be notified of this death within two months of the date of death.
- The insurance policy will be terminated (unless otherwise agreed in writing with the health insurance provider) for each insured party as soon as he or she is no longer insured under the Long-Term Care Act (Wlz) or commences active service as a member of the armed forces.

18. Reconsideration and complaints

This agreement is governed by Dutch law.

Request for reconsideration

If you do not agree with a decision made by a.s.r., you may request that we reconsider it. You will then have to resubmit your authorisation and add new medical information. You can submit the request for reconsideration by email to www.asr.nl/service/zorgverzekering-upload or by post to a.s.r., attn. Medical Care Department, PO Box 2072, 3500 HB Utrecht (The Netherlands). In all cases, please clearly state that your correspondence concerns a request for reconsideration.

SKGZ

If we fail to respond to your request for reconsideration within four weeks or have indicated the intention to adhere to our decision, you may turn to the Dutch Health Insurance Industry Complaints and Disputes Authority (SKGZ). The SKGZ offers mediation services in order to solve problems. If mediation fails to produce satisfactory results, the Disputes Board of the SKGZ may issue a binding decision. You can also bring your request for reconsideration before the competent court.

Complaints

If you have a complaint, please contact your insurance adviser first. They will try to find an appropriate solution, if necessary in consultation with a.s.r.

If you are unable to find a solution in consultation with your insurance adviser, you may submit a complaint using the complaints form that can be filled in on www.asr.nl/over-asr/klachtenformulier, or by sending a letter to a.s.r. Klachtenservice, PO Box 2072, 3500 HB Utrecht. Alternatively, you may call us on +31 (0)30 278 36 30.

If you are dissatisfied with the way your complaint was handled, please submit it to the SKGZ.

You may also bring your complaint before the competent court.

19. Provisions for employer, employee and self-employed

General

Termination of employment
In the event that an insured party accepts a job with another company, the insurance will be continued without option under an equivalent individual supplementary insurance policy. The termination of employment must be reported to the health insurance provider prior to the date of termination of the old contract of employment. Special agreements that apply exclusively to the group insurance will not be continued under the individual supplementary insurance policy. All rights to discounts and other entitlements under the group policy will cease to apply upon termination of participation in the group insurance.

New group insurance policy
The policyholder is entitled to cancel the insurance before the end of the term, with effect from the first day of the month following the date of termination of their previous employment in connection with entering into a new contract of employment, in the event that the reason for cancellation concerns a changeover from one employment-related group insurance policy to another employment-related group insurance policy. The policyholder may cancel the old insurance up to 30 days after entering into the new contract of employment. Neither the cancellation nor the registration apply retroactively, and both will take effect on the first day of the same calendar month.

Deviation from the group nature of the contract
The health insurance provider reserves the right to terminate the contract prematurely in the event of a significant deviation from the group nature of the contract, with due observance of a notice period of one month.

Employer:

Termination of Doorgaan insurance policy
If the employer decides to longer offer the Doorgaan insurance policy to its employees, this supplementary insurance will cease to apply. Upon termination of the insurance policy, all rights to discounts and other entitlements will also cease to apply.

Self-employed:

Termination of disability insurance policy
If the disability insurance policy that is based upon this Doorgaan insurance policy is terminated, this insurance policy will terminate on the same date as the disability insurance policy. Upon termination of the insurance policy, all rights to discounts and other entitlements will also cease to apply.

Termination of disability insurance policy
You are only entitled to a group discount if you have current basic and disability insurance policies with a.s.r. and are insured under a group disability insurance scheme for entrepreneurs (i.e. group health insurance for self-employed persons who have taken out individual disability insurance and health insurance with a.s.r.). Entitlement to this group discount will immediately end upon termination of the individual disability insurance with a.s.r., or once you are no longer insured under a group disability insurance scheme for entrepreneurs.

New group insurance following termination of disability insurance
As a self-employed entrepreneur, you are entitled to terminate the insurance prematurely if you are insured under a group disability insurance scheme for entrepreneurs (i.e. group health insurance for self-employed persons who have taken out individual disability insurance and health insurance with a.s.r.) and take up employment with an employer. You may then transfer to your employer's group basic health insurance on the date on which your group disability insurance for entrepreneurs terminates, provided that the start date of your employer's group basic insurance is the same as the termination date of your insurance with us. If these two dates differ, the insurance will continue on an individual basis.

Employee:

Termination of sick leave insurance
If the employer terminates the sick leave insurance policy and/or other group income protection insurance policy that is based upon this Doorgaan insurance policy, this insurance policy will terminate on the same data as the sick leave insurance policy. Upon termination of the insurance policy, all rights to discounts and other entitlements will also cease to apply.

20. Terrorism cover clause

Under this insurance, any damage or loss due to terrorist acts is covered by the Dutch Terrorism Risk Reinsurance Company (Nederlandse Herverzekeringsmaatschappij voor Terrorismeschade N.V., NHT).
The text of the terrorism cover clause is available from the health insurance provider upon request.
